水培材料

100x50開蓋種植管

50號種植杯

Water cultivation using 100x50 open cover planting tube is simple for plastic square planter plate. The planting hole and planting distance can be adjusted. It can be used for water cultivation of planting and vegetable seedlings in greenhouses, etc.

100 x 50 open lid PVC planting channel

Water cultivation using 50# planter cup is simple for plastic square planter plate. The planting hole and planting distance can be adjusted. It can be used for water cultivation of planting and vegetable seedlings in greenhouses, etc.

50# planter cup

Planting cup is made by food grade plastic with professional injection process. It is suitable for water cultivation. It can be used for water cultivation of planting and vegetable seedlings in greenhouses, etc.
